

INSTRUCTIONS FOR AUTHORS

The Journal of Andaman Science Association (ISSN 0970-4183) is an official Journal of the Andaman Science Association, C/o. Central Island Agricultural Research Institute (CIARI), Port Blair - 744 101, Andaman and Nicobar Islands. Journal provides publications of articles in all areas of Agricultural Sciences, Horticultural Sciences and Forestry, Life Sciences, Environmental Sciences, Genetics, Molecular Biology, Biotechnology, Plant Pathology, Entomology, Biomedical Sciences, Botany and Plant Sciences, Soil Sciences, Zoology, Endocrinology, Toxicology Mycology and Parasitology, Microbiology, Cell Physiology, Environmental Biotechnology, Animal Sciences and Fisheries Sciences. The Journal welcomes the submission of manuscripts that meet the general criteria of significance and scientific excellence. Papers will be published shortly after acceptance. All articles are peer-reviewed.

File formats: Authors should submit their manuscripts in duplicate (Printed in A4 sheet) and electronic copy in CD. Submit the full manuscript including text, tables, figures (graphs and pictures) as a single file using Microsoft Word File for Rich Text Format (RTF), the font should be in Times New Roman.

First Page: The first page must include the following information, title of the manuscript and Author(s) address including email and telephone numbers.

Abstract: The abstract should describe the purpose of the study, major finding and conclusions. The abstracts should be limited to 250 words.

Keywords: 4- 6 keywords should be provided below the abstract.

Introduction: The introduction should be brief, the relevant literature on the subject, and the proposed approach or solution. It should be understandable to colleagues from a broad range of scientific disciplines.

Methodology: The methodology should be complete enough to allow experiments to be reproduced. However, only truly new procedures should be described in detail; previously published procedures should be cited, and important modifications of published procedures should be mentioned briefly. Capitalize trade names and include the manufacturer's name and address. Subheadings should be used. Methods in general use need not be described in detail.

Results: This section should include only results that are relevant to the aims and hypotheses summarized in the introduction. The results should be written in the past tense when describing findings in the authors' experiments. Previously published findings should be written in the present tense. Results should be explained, but largely without referring to the literature. Discussion, speculation and detailed interpretation of data should not be included in the Results but should be put into the Discussion section.

Discussion: This should interpret the findings in view of the results obtained in this and in past studies on this topic. State the conclusions in a few sentences at the end of the paper. The Results and Discussion sections can include subheadings, and when appropriate, both sections can be combined.

The **Acknowledgments** of people, grants, funds, etc. should be brief.

References: In the text, a reference identified by means of an author's name should be followed by the date of the reference in parentheses. When there are more than two authors, only the first author's name should be mentioned, followed by 'et al'. In the event that an author cited has had two or more works published during the same year, the reference, both in the text and in the reference list, should be identified by a lower case letter like 'a' and 'b' after the date to distinguish the works.
